VOL. XXV.

RENO, WASHOE COUNTY, NEVADA, TUESDAY, JULY 24, 1888.

Rese ter Rie Sonite. Am willing to trade Rie Bonite lands in Butte county, California, for two or bree town lots, or for a house and lot no. It is believed that Rio Bonit in Reno. It is believed that Rio Bonito property will increase in value 100 per cent within two years. There are no richer lands in the world than the Feather river bottom lands, good for oranges, lemons, peaches, apricota and other fruits without irrugation. This is an excellent opportunity for speculation, or to get a home in one of the best apots in California. Will be in Reno for a few days, and will be pleased to meet all those who wish to avail themselves of this opportunity.

Cure for Files.

Itabling Files are known by moisture like perspiration, producing a very agreeable mois ure after getting a arm, is form, as well as Bilin i, Bleedina and bruding Files, yie d at once to the appearance of the Benedy, non acts directly upon the para affected, porbing the lumors allaying the insectioning, and effecting a permanent c. 50 cents. Address The Bosanto dieal Co., Fiqua, U. Sold by S. J. adgkinson & Co., iteno, Nev.

Give Them a Chance! That is to say, your lungs. Also all your eathing machinery. Very wonderful achinery it is. Not only the larger airges, but the thou ands of listle tubes

passages, but the thou ands of little tubes and cavities leading from them.

When these are clogged and shoked with matter which ought not be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, caterrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is 'ust one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything clies has faited us, you may depend upon.

In his new discovery for Consumption succeeded in producing a medicine which is acknowledged by all to be simply maris acknowledged by all to be simply mar-velous. It is exceedingly pleasant to the taste, periectly harmless and does not sicken. In all cases of Consumption. Coughs, Colds, Wucoping Cough, Croup, Brouchlis, and Pains in the one t, i. has given universal satisfaction. Dr. Bos n-ko's Cough and a ung 8, rup is sold at & cents by 5. J. Hodgkinson & Co., Revo., feli-6m.

The best salve in the world for outs bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilbiains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co.

Merit Will Tell trated than " Fryer's Abietene Remedies" were when "Fryer's Abletene Remedies" were awarded diplomas at the late California State Fair at Sacramento, and at Mechanic's Institute at san Francisco. Wm. Pinniger is agent for these celebrates "Abletene Remedies," and he offe a to return your money if they do not give satisfaction. In buying, be sure the facilities ignature of Dr. Fryer is on each, is none are genuine without it.

to S J Hedgkinson the Druggist and get a free sample of Dr. Gunn's Liver Pills; will cure sick headache the first night. Good for Billioueness, Sallow Complexion or Pimpies on the face. Osly one, for a dose. Twenty-five cents a dox.

An Absolute Cure. ORIGINAL ABIETINE OINT in boxes, and is an absolute cure for o.d sores, burns, wounds, enapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the OkiGINAL ASIETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by

Advice to Mothers. WINSLOW'S SO THING BYRUS should always be used for children teeth-ing. It southes the child, softens the guens, allays all pale, cures wind colle, and is the best remedy for diarrhose. Twenty-five cents a bottle.

A JAPANESE ACCOUNT OF FANS.

bly a Chinese Invention-Fans for

Dr. D. B. McCartee, for many years Dr. D. B. McCartee, for many years a missionary and educator in Chinn and Japan, and now a resilent of Washington, District of Columbia, has favored us with a translation he has made of a Japanese account of the fans of that nation. Dr. McCartee is one of the most accomplished Chinese and Japanese scholars in America, and his views on any Oriental custom carry the weight of authority.

The present communication is a translation from the French of Mr. Matsugata's report entitled "Le Japon a L'Exposition Universelle de 1878."

de 1878."

There are in Japan two kinds of fans; one called sensu (Chinese Shentizu), which folds up and is easily carried; the other of a round shape and which does not fold up.

No one knows exactly the origin of fans in Japan, but the traditions have uniformly taught us that about the year 670 (A.D.), during the reign of the emperor Tenji (who adopted many of the institutions and customs of the Chinese), an inhabitant of Tamba, looking at bats folding and unfolding their wings, conceived the idea of making fans of leaves, which from that circumstance bore the name of kuwa hori, which means a bat.

The fan called Hi gi [or Hitree

The fan called Hi gi [or Hitree fan] was made from the leaves of the Hi-no-ki (Chamacyparis obtusa). The leaves were tied to each other by threads.

Another kind of fan called Chukei (Chinese Chu Kin, lit. bamboo tendons or veins) is made of bamboo. It has

or veins) is made of bamboo. It has
the appearance of being half open
when it is shut. These two kinds of
fans are only carried on the occasion of
great ceremonies.

The ordinary fans are made in
Kioto, Osaka and Owari; but the better
kinds are made in Tokio. The leaves
(ribs, bones, sticks or stays) of fans are
made of bamboo, but ivory, shell and
shitan wood (imported from China) are
also used.

They are decorated with mother-of-

They are decorated with mother-of-pearl, coral and lacquer work. The paper which covers the "bones" of the fan is frequently ornamented with gold leaf, drawings, flowers, birds, etc.

It is sometimes necessary to give the paper a coating of shiber (or varnish made from the juice of the raw persimmon) to give it greater solid-ity or firmness.

ity or firmness.

There is also a kind of fan very rich in quality and of a larger cize, which is used by dancers to beat time, or in making graceful motions.

The Achiwa, or fans which do not fold up, come principally from Nara, some twenty miles or so from Kioto. They are generally made of paper, but sometimes of silk.

About 1660 (A.D.), during the period called Kuambun, a (Buddhist) preacher named Gensel, noted for his artistic taste, and who was also a poet, devoted himself at Fukakusa, in the province of Yamashiro, to the making of fans, which were very beautiful and in perfect good taste.

These fans, which acquired a great reputation, were known as Fukakusa Uchiwa. They are one of the principal products of that province. The best Uchiwa are made at Tokio, but as the varieties of this kind of fans aro very numerous, we will not weary our readers by enumerating them in detail.

Norm.—The translator does not hold himself responsible for the in-consistencies of this account. The consistencies of this account. The emperor, Tenji, introduced many of the Chinese manners and customs into Japan and many imitations of the Chinese official forms and offices. Calendars, almanaes, and the mode of denominating the year, were all introduced about the same time from China and fans probably at the same time also. The Chinese name used in Japan would confirm the supposition that the better kinds of fans, at least, were introduced from China.—D. B. McC.]

PLATFORM AND RESOLUTIONS The following pistform and resolutions were adopted by the Republican State Convention, which nvened at Winnemucca on the

15th instant: 15th instant:

The Republicans of the state of Nevada, in Convention assembled, again express their loyalty to the principles of the Republican party, which have made this country so great and prosperous during the last quarter of a century.

RESOLVED, That the question of a sufficient upply of circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

That a diminishing quantity of money reduces the price of labor and property, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

reduces the price of labor and property, erriches the creditor. Impovershes the debtor, and paralyzes industry and enterprise.

That the present financial system of the United Stares, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks, without regard to the increases of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to the national banks without interest, is subseraive of the rights of the people, oppressive, unjust and should be repudiated. That a financial policy whereby hoth gold and ally r shall form the basis of irculation, whether the money used by the people be coin, or coin certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

That the atten to substitute national bank notes, costing the Government millions of dollars samually, for free silver, costing nothing, is an outrage up r the recople that the money and which has remode that the steep the government for private speculation, shocks the moral sense of the people and destroyed, and equal rights be restored to all the people.

We charge that President Cleveland is the willing tool or agent of a powerful money ring, which fattens on the asbidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxion and uses the mythout the payment of interest contracts the cur ency to enhance the value of bonds, and enriches nor President who is personally interested in national banks or the honded indebtedness of the United States, but we demand a cantidate who is free tood justice to all the people of the country—the poor as well as he rich.

That the trick of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the Bond Purchase bill, equals

fraudulent demonstration of silver in 1873.

RESOLVED. That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to amonty the people of

protection of home industry, and that the laborers of this country have a right to all the work required to supply the p-ople of the United States, and that we are in favor of high wages, and to that end will protect the wage-werkers from competition with the cheap labor of other lands.

RESOLVED, That the policy of the Government should be inaugurated and established by the p ople t rough their representatives in both rouses of Congress, and not by the President or money trust, of wich he, either as agent or head, is most active in defending.

III.

We charge President Cleveland with violating every premise he made in favor of civil service reform, with crippling the mail service, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his administration to prevent appropriations for navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the nited States, and with joining the foreign bondholders to demonetize silver and destroy the industries of his own country, and for the reduction of the wayes of the hint employes at Carson, for closing the Carson Mant when it was not only self-sustaining but a source of revenue to the Government, for his contemptuous vetoes of bills for the relief of disabled soldiers and asilors, and for failing to construct the Government building at Carson as required by law.

We are in favor of the absolute exclusion of Chinese, and of the reatrition of immigration by which the overcharged condition of the labor market is made worse, and we favor legislation by which a revision of our naturalization and land laws may be accomplished.

We demand in behalf of our various in

RESOLVED. That we recognize the right of labor to organize for its lawful protec

VII.

We favor the appropriations by Congress for hydrographical and topographical sur-veys in this State, to the end that the wasts waters may be preserved for the purpose of irrigation. We endorse the wise and conservative administration of Governor Stevenson, and we heartily comment the able efforts of Senators Jones and Stewart and Representative codburn in behalf of the interests of this State.

of this State.

IX.

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

We demand the restoration of the m survice in this tate to the efficiency no tained by the last Republican edminis-tion, and favor the payment of fair wa-te all restate employee.

### NOTICE.

July 24, 1888

Readers of the Evening GAZETTE, going out of town for the summer, can have the paper mailed to them to any point on the Pacific Coast for 50 cents per month, postage free.

THE Bourbon free trade organs vehemently insist that the Mills bill is not a free trade bill. Candor compels us to admit that in one respect it is not a free trade bill. With respect to Southern products it is not only not a free trade bill but is a strongly protective measure. It continues the highly protective tariff of 100 per cent now levied on rice, because rice is exclusively a Southern product. It continues a highly protective duty of 60 per cent on sugar, which is not produced in the North. All through the bill special care is taken not to injure Southern industries.

No tariff is too high, in the estimation of the Democratic majority of the House, for the protection of Southern interests. They rail at 47 per cent tariff on Northern products, it is true, but when it comes to Southern products they are the rankest kind of protectionists. To enable Southern industries to prosper they levy a tariff of 60 to 100 per cent on the products of that section.

Northern wool and salt, and California raisins must go on the free list because the people want cheaper wool, salt and raisins; but Southern sugar and rice must be highly protected because the people do want cheaper sugar and old friends here now think he has rice—we suppose. Nearly every change made in the bill since it came from the hands of the committee has been dictated by Southerners, who want a high protective tariff on local products. Not a single change has been made in the interest of the North.

In this sense the Mills bill is not a free trade bill. It is for free doubt but what we can produce New York. portant Northern products, but it do not herd our sheep in flocks. is for protection-high protection for the industries of the South docks ten miles square, with seventhat seem to need it. It is a rascally, partisan, sectional scheme to raid Northern industries and has 300,000 acres in one locality, is build up those of the South. The 54 cents for feed and 50 cents for brigadiers are getting even with us for saving the Union.

MR. HENRY WATTERSON, the editor of the Louisville Courier-These leases are for the maximum Journal, has always printed the period of eighteen years, and at the expiration of Independence on the expiration of that lease it is re-Declaration of Independence on the first page of his newspaper every Fourth of July. This year, however, instead of following his usual custom, he printed the President's Free-Trade Message. Mr. Watterson editorially explained that this document took the place of the Declaration of Independthe first page of his newspaper of the Declaration of Independence. The last named document resulted in our throwing off all allegiance and obedience to England. Most significant is it then always a good market." that Mr. Watterson should at this time substitute a document over which all England is rejoicing. The document, unlike the one Mr. Watterson has been wont to print, is not a declaration of Independence but Dependence of Great Britain. Which shall we support, Chicago, held a meeting yesterday the Declaration of Independence

THE Associated Press was in Mills Tariff Bill only needed the President's signature to become a law. As a matter of fact it has yet to pass the Senate and as that body is Republican, the outlook the Merita paint of the private detective law against the Pinkertons. for its passage at this session is exceedingly unfavorable. In the Senate the hirelings of the Cobden Club will no doubt do able the anspicies of the Central Trades service and every artifice known to the professional lobbyist will be employed to effect its passage. Cable dispatches announce that the leading English journals are more than pleased with the half-won victory, and are loud in their praise of Grover I and his party.

the anspicies of the Central Trades and Labor Council, to protest against pauper immigration, resolutions were passed protesting against contract labor, and demanding that the Government put a stop to it at once by legislation the same as in the United States. Several members of Partitude (States Severa

## BARCLAY HENLEY.

He Deserts Free Trade and Joins the Party of Pro cetion.

WASHINGTON, July 28 .- Ex-Congressman Henley has written a letter to Representative Morrow, in which he says he has, after much thought, come to the conclusion that he could no longer remain in the Democratic party because he was not in sympathy with its prin-ciples. "I cannot," he says, "ally myself with a party whose guiding star, no matter how far off, is free trade. I believe in protecting American labor and the product of American labor. As a conse-American labor. As a consequence I must join the party of r'rotection. I will do what I can to

aid that party in carrying the State for Harrison and Mort. n." Congressman Morrow says the conversion of Mr. Henley means 5,000 votes to the Republicans in California. "Henley in his letter. makes the broad assertion that the State was certain for the Republican ticket, and that means all it says," added Mr. Morrow, "for Henley is a clear-sighted politician who knows the State from one end to the other."

The eouversion of Mr. Henley has been rumored for some time and also denied by parties who presumed to have authority fort he denial, The letter to Mr. Morrow will certainly put to rest all doubts as to where he now stands.

A SENSATION AT SANTA ROSA. SANTA ROSA, July 24.—The telegram from Washington which appeared in the San Francisco Call, ts the effect that Ex-Congressman Birclay Henley had written a let-ter to Congressman Morrow say-ing he could not support a party whose guiding star is against pro tection, caused a sensation in political circles this morning.

election. The report recites the story of the suppression of the col-ored vote and finds that the resolution of the colored men to abstain from voting was due to the terrorism inspired by the action of the White League and of a committee appointed by it.

The testimony taken shows that Samuel Livingston, Deputy U. S. Marshal, R. E. Wilson, Deputy Collector of Internal Revenue, and

pressing the opinion that they should be dismissed from the publie service.

### Parnell's Enemies.

LONDON, July 23.-It is rumored that a woman is at the bottom of Parnell's persecution and that she is the main source of the Times' information. She is known only to a few, and it is said that the line in the bill making witnesses who testify free from injury was placed there on her account, there being a suspicion that she forged the letter. The Gladstonians support Parnell and the bill is likely to be lost. The Government say if Paruell will not accept this opportunity they will drop the matter. The story of the mysterious woman is credited, though her whereabouts

### Blaine's Intention.

London, July 24.-Judge Gresham arrived here two or three days ago. He remains in Europe during the vacation of the court. Blaine enjoyed his Scottish trip, and is feeling pleased at the thought of returning home. He has been much interested in the reports of the preparations for his reception. He intends to take part generally in the campaign.

## "La Beile Russe."

Miss Jeffreys-Lewis appeared in the above-named piece in the McKissick Opera House last evening to a small but select audience. A July night, with the thermometer in the eighties is not apt to call forth much enthusiasm, and in fact the GAZETTE is of the opinion that there was but little occasion for its display. Jeffreys Lewis has been for years past the acknowledged queen of the American stage in the parts which she has made her own but her star is avidently on the own, but her star is evidently on the wane. Her support was fair.

By reason of the state of chronic incredulity in which many men pass their lives they miss half the good of this world. They seem to think that doubt and unbelief are proofs of wisdom, and through fear of being deceived seject much that is true and good. To such minds the statement that Dr. Pierce's Golden Medical Disthat Dr. Pierce's Golden Medical Discovery is a real and proven cure for all diseases caused by terpid liver, had blood or scrofulous humors carries with it its own condemnation. They do not believe it, because we say so; and yet what more, or less, than this can we do? We know the facia, and if we did not make public the great value of this remedy few would profit by it. We try to do our duty in the matter and it, remains for the doubter who needs help to overcome his prejudice and give it a trial.

5500 Reward for an incurable case of chronic Na-al Catarrh offered by the manufacturers of Dr. Sage's Catarrh Remedy.

The farmers of Eagle and Spring valleys, Lincoln county, are warring water rights. The "little giant of the Nevada press" is expected to return home about the 1st prox.

Enoch Morrill, the Truckee Meadew rancher, is building a new and com-modious residence.

Professor W. McN. Miller of the State University returned from San Francisco last evening. Remember the meeting of the Reno Republican Club at McKissick's Opera House Friday evening.

Tests of Elko county coal show 4314 per cent of carbon. The remainder evidently consists of petrified rotten

Reports from all the mining districts throughout the State are very en-couraging, all the mines seeming to have bright prospects.

Stockmen are on the ragged edge. With hay at the present price they do not see how they can feed six-cent beef and come out even.

Mrs. J. W. Parker, accompanied by her two children, arrived last evening from San Francisco on a visit to her mother, Mrs. H. L. W. Knox.

John Logan was Judge Young's only victim to-day. He was found guilty of disturbing the peace and will spend the next ten days in the county jail. Robert McKitchnie, an old Comstock miner, was burned to-death in a fire in the Hidden Treasure mine, near

Auburn, Cal., on the 20th instant. J. W. DeLano, advance representa-tive of the J. M. Ward company, is in town arranging for the appearance of the troupe here on the 30th and 31st

Bathing in the Truckee is the latest society fad, and every afternoon belies and beaux, in regulation bathing dress, disport themselves in its refreshing waters.

Miss Florence Hayward, for the past two years music teacher at Mount St. Mary's Academy, depart d for San Francisco Sunday night, where she will hereafter reside.

One hay speculator has corralled 1,100 tons of alfalfa, which he will hold until late in the fall. At that time good baled hay is expected to command \$15 a ton.

The State Board of Agriculture will consider the charges brought against it by J. S. Bowman at the next meet ing. Some lively and interesting developments are promised.

Reno is at present enjoying Arizona weather. Hardly a day passes that a slight shower of rain does not fall. To day at 11:15 A. M. there was quite a down-fall. Old Pluvius must be in

those desiring a good lunch and a number one glass of beer, of which he keeps the best makes.

M. Cooper is "mine host" at the Pioneer Hotel, where anyone can get a square meal for two-bis. Remember it is opposite the depot.

Pinniger gets his "Tarket and the pioneer Hotel, where anyone can get a square meal for two-bis. Remember it is opposite the depot.

In answer to several "kicks" re-cently made, the GAZETTE will state that it cannot please everybody and does not propose to try. If you don't want your name in public print, do not become a politician or transgress

The rate per car on horses from Winnemucca to Eastern points are as follows: From Winnemucca to Ogden, \$60; Ogden to Omaha, \$145; Omaha to Chicago, \$40; Chicago to New York or Philadelphia, \$45; total

per car, \$290. Tuscarora is reported to be in the throes of a mighty mining boom. Every in-coming stage is reported loaded down to the guards with passengers, and new arrivals experience great difficulty in securing sleeping

accommodations.

The Washington Star of July 12th says: Mrs. J. P. Jones and her guests, Mr. and Mrs. C. C. Powning of Reno, Nev., and Miss Suckner, Mrs. Jones' niece, all visited Mount Vernon yesterday and ate their luncheon on the lawn.

M. E. Gilmore, an architect and builder of Reno, publishes a card in the Virginia *Enterprise* in which he says "that the woman, Sarah Baker, who signs her name Mrs. Gilmore, is not my wife, nor never has had a right to the news so fare a Lawrence. right to the name so far as I am con

Fred Elliott, formerly proprietor of the Bodie (California) Standard, and well known throughout the mining re-gions, died in Bellevue Hospital, New York, last week of consumption. His latest work was done while on the ed-itorial staff of the New York World.

Reno, the "Denver of the Pacific," the "Athens of Nevada," the "Queen City of Sageland," etc., is without a public park. Now that property is comparatively cheap some action should be taken looking to the appropriation of eligible sites for "the people's breathing grounds."

The condition of the sidewalk at Barnett's corner is a disgrace to the town and should be improved at once, If the owner of the property is not imbued with sufficient public spirit to perform the work the GAZETTE Suggests that a public subscription be taken up and a new sidewalk laid.

## A MINING BOOM

UNDER WAY IN EASTERN NEVADA

Tuscarora, Buel and Delano Mining Districts -Prospecting Being Actively Pursued.

pecial Correspondence GAZETTE. ELKo, June 20, 1888.

EDITOR GAZETTE: The discovnied with undoubted geological evidences of their permanence, together with the extraordinary developments and large entput of velopments and large entput of ore from the Emancipation mine at Mountain City, showing every indication that the ledge exposed to view is inexhaustible in the mining sense that this word is understood and defined by mining men, has had the effect of stimulating prospecting, and hence I observe renewed activity and energy in this peculiar department of mining in every direction, both north and south of the Central Pacific railroad. All of the old abandoned districts will be revisited and re-examined. Many old-timers now remember the good indications that were passed over hurriedly in the heyday of mining available there will be required \$100 an acre, the profit would reach prosperity when a prospect was not deemed worthy of notice or active attention that did not give a result of from \$150 to \$200 per ton. The most of these old districts are now or will be examined with a view of location and devel-

opment of the same. During the past six or seven years nearly all well-directed pros-pecting in Eastern Nevada has ceased for the reason that taxes and labor have been high, the price of mining machinery and mining supplies too expensive, and capital was called into other silver fields where matters in this respect were more favorably situated than in Nevada. Nearly all these conditions have passed away, and hence renewed prospecting. From the methodical manner in which the old and amateur prospectors have mapped out their line of work I have no doubt but that their geological surface investiga-tions for the precious metals will result in the fluding of some valuable and promising mines. Northesstern Nevada is unquestionably one of the richest mining fields to be found in the great silver zone of America. Nature seems to have bestowed her with mineral gifts with a prodigal hand. Here is to be found all of the useful as well as precious metals known to civilized man or used in the commerce

of the world. Among other districts that will be visited will be Silver Zone, situated some twenty-five miles south of Toano on the Steptoe rauge. The formation is lime and granite. The ores of the district carries silver and copper and at the time of its discovery, some sixteen years ago, good paying prospects were obtained from several of the ledges, but as the holders of these claims were poor men and they were unable to call the attention of capitalists, the district was finally abandoned.

BUEL MINING DISTRICT of the Central Pacific railroad. The Nevada and Utah line runs through the district caving the western part in Nevada and the western part in Nevada and the eastern part in Utah. This district is another of the old discoveries and after considerable preliminary and well directed prospecting was done resulted in opening out some small bodies of pay ore. The district was visited David Buel, who, by the way was a mining operator and expert of considerable means and experience. After an examination Mr. Buel took hold of several of the best prospects. He erected hoisting and mining works and built a smelting furnace, spent a great deal of money in work and mining operations, made several runs and ome of them were successful; Mr. Buel's peculiar habits at that times as well as management, with a want of information as to the treatment of these ores led finally to disastrous results The furnace men or more grew less, until it contained a few old-timers who seemed to possess more faith than they had energy. Of late a Salt Lake company has been working the principal mines, but with what results I am not informed. The formation is soft and easily penetrated. The ores of this district are chiefly galena. carrying some copper. The low ruling rates of copper and lead heretofore, together with the depressed condition of the silver bullion market, has contained a few old-timers who per and lead heretofore, together with the depressed condition of the silver bullion market, has to-do camp to the front as a silver producing district.

Some twenty miles northwest of the Central Pacific railroad, from Tecoma, is situated the

DELANO MINING DISTRICT, hich was discovered and organized during the early days of prospecting. Quite a number of ledges were located, but not sufficient work to determine the prospective value of the claims was performed. The few pioneers that founded the district located and held all of the

claims discovered, and placed such a fabulous value upon them that capital was deterred from giving a helping hand. There was, however, a few carloads of ore extracted, sent and worked at Salt Lake City, from which the owners realized good pay, but by the time the heavy cost of transportation by

incidental expenses, as well as the ZETTE representative last evening, cost of reduction, there was little left for the owners of the mines, and therefore this mode of operating was abandoned. The general metallic formation is granite, all land lying contiguous to Reno could ternated with sections of granite. be made available for agricultural eries of rich and somewhat massive ore during the past year in like others of its kind, was given three or four of the leading mines up and abant oned by the mean that the expense would be small The major portion of the ore is three or four of the leading mines of Tuscarora district, accompaof Tuscarora district, accompa-

> able prospects, but the hostile In-dians that hover around the locality prevent the development of the Some sixteen or seventeen miles north of Mountain City is situated Mount Merritt, whose altitude is not less than 9,000 feet above the level of the sea. On the southwest face of this mountain a large number of well-defined gold and silver bro ledges have been discovered. In and tain proper to the summit there seems to be a ledge or deposit every 100 or 100 feet apart, their general strike being north and south, all of them carrying gold purchasers for it. But the mines are so situated to be but with the land selling at \$500,000, considerable capital and the erection of a quartz mill. At the time of the discovery of this district Mountain City was on its down-ward grade, and consequently no mining work except assessment water in abundance. At the foot of this mountain Merritt creek rises : ud flows in a northwesterly direction into the South Bruneau Along this creek, on both sides, is the finest summer pastures I have ever seen, and when I visited the place, not a single head of stock was to be seen nor had there been,

## THE SUPREME COURT.

A Growl From Sam Davis at Its There has been considerable comment, says the Carson Appeal, over the decision of the Supreme Court in the McCullough case. The case resulted from conflicting laws. Mr. McCullough does not at present know whether he is holding his office by virtue of a legislative election or the appointment of the Board of Prison Commissioners. So uncertain was it closed down and the camp of 100 which law holds and which is void that the amicable suit was brought which the Supreme Court declines to

with the depressed country, has given but little encouragement for the ressurrection of this district. With fair prices for its production and good management in the mining and reduction of its ores to bullion, would bring this once well-to-do camp to the front as a silver producing district.

The Supreme Court could have settled it for next to nothing and then not a single taxpayer in the State would have objected.

Members of the above-named com oany are requested to meet in Justice Young's court-room this (Tuesday) evening at 8:30 o'clock sharp. By or-der J. A. Zeeglez, Foreman.

BEAUTIFUL LOTS FOR SALE!

From \$200 to \$600!

A Rare Chance for Investment and a Home.

THE MOST LOVELY PORTION OF RENO.

PAGING THE TRUCKEE-THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY-SPLENDID SEWERAGE-HEALTHPUL.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buy ng elsewhere, Partles will do well to look at these Lots.

Before buy ng elsewhere, Parties will do well to look at these Lots.

"So I set him to work, and a better waiter I never had. He's awfully 'fly,' will give better than he gets overy time; but he's not impertinent nor offensive, and although they get the worst of it, my customers all like him. He's building up my business, too, for every fellow who gets bit tries to play even by bringing in his friends and getting them knocked out with chin music. chin music.

chin music.

"You ought to have been here lest Saturday to see him do up four flip young fellows from out of town. The moment they came in I tumbled to it that they had the big-head bad, and were just too 'cute to be comfortable, to I sent Bob over to wait on them. One of the fellows wore sort of sanctified clothes, as If he was studying for a germon surveyor. studying for a sermon surveyor, and he ordered a broiled spring

chicken.

"It was a nice one Bob placed in front of him, as nice a one as I ever saw upon a platter, but the follow wanted to show how flip he was, so he sawed away a moment, dropped his knife, put his eye-glasses a-straddle of his nose, bowed his head and looked hard at the chicken, as if it were a curiosity. Then he raised as if it were a curiosity. Then he raised his head, dropped the glasses off his nose, and, with a sly wink at his friends, said to Bob: " Did they escertain the cause of

death? " Sar?' said Bob.

"'Did they make a post-mortem ex-amination? Did they hold an inquest?"
"'No, sar,' said Dob. 'No sar.
In de city, sar, dey don't hold no inquest when de pusson dies of natural causes or old aige, but only when de

death is wielent, sah.' death is wiclent, sah."

"The other three fellows were all ready to laugh, so it didn't take them long to commence. The flip fellow didn't commence quite so soon, but when he did get to going he laughed the loudest of all. Then he called for a bottle of wine and five glasses and made Bob wet his threat with champagne."—[Detroit Free Press.

James Pound's Double Life.

James Pound is an Englishman who enjoys the distinction of hav-ing lived successfully a double

Smith in 1846 and in 1859 made a will bequesthing all his property to Mrs. Pound.

In 1869 he was married again

In 1869 he was married again under the name of Jackson to a widow named Foster. A hotel was started by the newly-married pair, and a very excellent hotel it must have been, if the property willed in 1878 by Mr. Pound Jackson to his "dear wife, Susanna Jackson," is a fair index of hotel quality as well as property.

fair index of hotel quality as well as prosperity.

Mr. Pound-Jackson, after his second marriage, stated to both wives that he had become a commercial traveler, and as such must be often away from home. Such was his keen sense of honor, however, that he divided his time equally between Mrs. Pound and Mrs. Jackson, and seems to have been a model husband to both.

Even in death his only unfairness was one of necessity. Nature refused to make an exception for such a remarkable case, and Mr. Pound-Jackson could not die in two places, surrounded by two wailing families. He did his best, however, for two wills were left, providing equally for each family. Nor can the probate court break either will.

Origin of Dominoca

Amedee Ponthieu has written an elab-orate article about the game of "dom-ino," (or, as it is called, "dom-inoes"), and contends that it dates back to the

and contends that it dates back to the sixth century.

Two monks of the celebrated monastery of Monte Casino, who were confined in the jail for a trifling disobedience, invented, in order to kill the dreary hours of their imprisonment, a game with small, white, square pieces of chalk, into which they cut small holes, which they colored, and with which they played.

Being watched by the jailer of the

played.

Being watched by the jailer of the monastery, they commenced to sing with a loud voice the beginning of the psalm, "Dirit Dominus Domino," as soon as they heard the jailer coming, and repeated these words until the dangerous man was cone.

After having been released they manufactured square pieces of wood and wory, with black holes, and sold them to other monks. Thus the game was soon spread throughout Italy

MEDICAL

EVERY NIGHT I SGRATCHED

"Tre seen many a 'fly coom' in my day, but that young fellow over there at the corner table is the boss of them all; he's loaded for any kind of game that comes along;" said the restaurant man, indicating a bright-eyed mulatto who was pulling a mapkin into the shape of a lily to adom a goblet.

"If you'll go over there and work of any of your old chestnuts on him without getting the worst of it, I'll give you the best dinner on the bill of fare."

"Thank you, but I'm not hungry; and, moreover, I'm not in the chestnut business. You'd better cell in the Count who has the stand out in front. He's got some all ready to string—the worm holes go clear through 'em. Dut what about your boy?"

"He came in the other day and struck me for a job.

"Yee, boss,' says he.

"Yee, boss,' says he.

"How many mistakes ten you make in an hour? says I.

"Yee, boss,' says he.

"I make no mistakes, boss,' says he. 'My name's not make in an hour? says I.

"Mistakes of Moscs. Bob Ingersoll.

See?
